

自我介绍：

开场白

Good morning/ afternoon (distinguished) professors,

It' s a great honor for me to have this interview.

I' m glad to take this interview.

I' m glad to be here for this interview.

个人信息

First, I' d like to briefly introduce myself. My name is 姓名 , I' m ... years old, born in Lanzhou, Gansu Province(实际情况). I will graduate/graduated from 学校 +时间. I majored in 专业.

My name is 姓名, and I was born in 年份 , in 地点

(Lanzhou, Gansu Province). My undergraduate study will be (has been) accomplished from 学校+时间. My major is 专业.

After 数字-year preparation for the exam, finally I' m equipped with solid knowledge basis, so I can stand here to meet you and to present myself.

With great effort and preparation for the exam, finally I' m equipped with sound theoretical basis, so I can stand here to meet you and to present myself.

读研原因

The reason why I was determined to pursue further education is to enhance the comprehension and study of 专业.

The reason why I was determined to pursue further education is to combine practice and theory, experience and knowledge.

It is the love and aspiration for the subject that motivated me to be persistent and pave the way for future study.

What I want most is not just the degree, but a chance to delve into the subject and the scientific research in the field.

Practically, being a graduate would provide me with more opportunities, advantages and resources in both

academic research and job market in the future.

Besides, being a postgraduate is just a starting point, because I still wanna pursue a doctor degree in 专业.

读研打算

(For my postgraduate life,) I will definitely meet the requirements of graduation. I will dedicate myself to doing my research, to publishing high-quality papers and to finishing my dissertation for Master degree.

(Besides,) I (also) hope to get more opportunities to take

part in real projects so that I can gradually be a valuable part of a project.

(Besides,) I want to pass 考证, which is important for my future career.

(Besides,) I hope to have some opportunities for internship, which allows me to put what I' ve learned

into practice.

As for my spare time, I wanna improve physical health by doing exercise and to broaden my horizon by reading or traveling.

职业规划

For my career in the future, I plan to pursue a doctor degree at home or abroad to consolidate the theoretical foundation and to improve my ability of scientific study in this field.

(For my career in the future, I plan to find a job related

to my major, so that I can put what I' ve learned into practice. During the process, I' ll improve myself and be a useful part in the society and professional world.)

报考学校原因

报考大学 was and still would be my first choice, thus I exerted every effort to took the exam (twice), and fortunately, I can meet you here this year. +

What drives me to insist my choice is that I like the city. It is a place full of vitality, and opportunities and

challenges. / With both a long history and internationalized atmosphere, it is a city full of opportunities and challenges.

报考大学 is home to many excellent majors, among which 专业 is an advantageous subject. So I was determined to be a postgraduate in the university.

性格爱好

爱好: music, music instruments, sports, traveling, dancing,
drawing pictures, reading, photography

性格: outgoing, quiet, easygoing, earnest, careful,
adaptable, independent, active, optimistic

I have many hobbies, such as 爱好 1 , 2, which enriched

my campus life in university. As you may find, I' m 性格
1 , 2.

As for my spare time, I have various hobbies, like 爱好 1 ,
2. If we got a chance to work or study together, you' d
find I' m 性格 1 , 2.

校园经历/成就

When in campus, through working for the Students' Union (as a leader), I developed some vital qualities and skills, like team spirit, leadership and communication skills. That experience taught me how to be a valuable part to serve others and how to balance my work and study.

Academically, I won the scholarship twice/数字+times for my excellent performance and hard effort in my professional study.

In 年份, I played a part in the National College Student' s Innovation and Entrepreneurship [ˌɒntreɪprəˈnɜːʃɪp] Program. I submitted a request to my

supervisor for join the program. So I managed to finish the task with my team members and ensured the quality. At last, the program was finished under our common effort.

Based on my interest, I joined in the 社团 club, where I met various excellent students and learned a lot about the new field. Later, I was lucky be elected as the leader,

so I could attract and help more students to enrich their campus life by holding a number of activities.

职场(实习)经历/经验

After graduation, I stepped into the trade relevant to my major. I worked for 工作单位 responsible for the 职务, which offered me a great deal of working experience and laid a solid foundation for my later professional development. Owing to my hard work, I was promoted as The next year, I was transferred into the 新部门,

taking the position of 新岗位.

When I was a senior, I got the chance to be an intern in 工作单位, where I worked with a lot of excellent colleagues and learned from those professionals. I was responsible for the 职务, which required me to have some new skills, (like 举例子), so I grew fast during the period of internship. In the end, I got credit for my fast

learning and hardworking.

结尾

OK, due to the time limit, I cannot fully present myself. I sincerely hope I would have the chance to be one of your students. Thank you for your attention.
